We can also remove this texture if you desire a fresh new look to your ceiling.

HIGH QUALITY, AFFORDABLE OPTIONS

KITCHEN AND BATH CABINET REFINISHING

Are you remodeling your kitchen or bath and thinking about new cabinets? Perhaps your countertop or flooring no longer match or the color you want to paint in your home doesn't coordinate with the paint color of your choice. Many homeowners replace cabinets that are still in great shape, unaware they have options for renewing their cabinets instead.

Cabinet refinishing is a cost-effective alternative that can transform your existing, outdated and worn cabinets to look new. By refinishing your cabinets instead of replacing them, we can save you hundreds, even thousands of dollars with exceptional results. It takes just a few days to complete and without leaving a mess. Our professional team will meet with you to understand your vision for your kitchen or bath and help you choose a color and method for the best results in any color you want to match and complement the rest of your kitchen or bath remodel.
